Dear Parent/Carer

We are writing to you to update you on the Council's new proposals relating to your school. These proposals are contained within Council papers going for consideration by all Members at the Council meeting on Thursday 24th of June.

A Council report identifies funding for a range of capital related works to schools and includes your school as one of 5 key school priorities within the Council's capital investment programme.

If approved, detailed plans for each of the schools will be prepared over the coming weeks and brought to Council in September. This means that the work that has been taking place to identify the improved buildings and learning environments for the children and young people in your school will be set out, along with the amount of money that will be invested, the timelines involved and the anticipated completion dates.

The paper is item 9 of the Council reports and can be found on our website www.highland.gov.uk Please refer to section 9.3.

You will be informed of progress and the next steps following the Council meeting and in advance of the detailed work going to Council in September.

Providing the best possible school learning environment and facilities is a key priority. We look forward to working with you to deliver this, and we wish to thank you for your ongoing support and understanding at this time.

Yours faithfully

Donna Manson
Chief Executive
