

# S2 into S3 Wider Achievement Options 2026-27

Name ..... Register Class .....

Parent/Guardian Signature .....

When Culloeden Academy introduced our new curriculum, one element of it was the opportunity for pupils to undertake courses beyond the traditional curriculum. Through these our learners can gain awards and recognition which should allow them to demonstrate some of the skills and talents that they have and that employers, colleges and universities would want to be aware of.

The following Wider Achievement options are offered to S3 pupils in Session 2026-27. Whether a course runs or not depends on uptake - not all will run. Pupils should identify their **top 3 choices (numbered 1, 2 and 3)** and then complete the online Google Form version by **Friday 23<sup>rd</sup> January 2026**. We hope to place as many pupils as possible in their first choice activity but need you to identify reserve options just in case.

Wider Achievement is delivered on 1 block per week. Please note that pupils going into S3 who are successful in their application for a place on the **Duke of Edinburgh Scheme** will have this option instead of their Wider Achievement choice.

Option	Course Description	Choice
1	<b>Art and Design - Practical Craft Skills</b> This course will be delivered by the Art and Design department. It aims to build applied arts skills that are relevant to the world of work as well as for leisure, health, and wellbeing. Students will engage in ceramics and printmaking projects to design, manufacture, and create craft products	
2	<b>Art and Design - Creative Photography</b> Come along and have fun with photography through using a camera in an inventive and creative way. You will build your confidence with visual communication that will feed into art and design and photography courses in senior school and build transferable skills. Creating imagery will lead to personalised projects for competitions.	
3	<b>Art and Design - Fashion &amp; Textiles</b> We will be exploring different types of fabrics, how they are produced and what can be done with them. We will also look at the damage caused by fast fashion and how we can combat this. We will also explore how to design and create some simple products and how to cost them.	
4	<b>Computer Games Design</b> This course is aimed at pupils who have a keen interest in the area and using software such as Scratch and Godot. This is an immersive, hands-on course for aspiring game creators who want to turn ideas into playable experiences. The programme develops core skills in game design, development, and production. Pupils will learn about areas such as game mechanics, level design, storytelling, prototyping, and user experience.	
5	<b>Confidence Building</b> Developing your confidence by identifying and learning how to sell your strengths, identifying areas to work on, building trust with others and learning to present yourself in an engaging way. This will be helpful for anyone going for an interview, planning to work in a team or aiming for a career in hospitality.	
6	<b>Drama - Tech Theatre</b> Looking at lighting, props, sound and stage design in theatre. Learn skills for work as you learn basic skills in all of these areas. There is no requirement to act or perform. All skills will be useful in National 5 Drama.	

7	<p><b>English - Media</b></p> <p>Have you ever been watching a TV show and it ends on a cliff-hanger; leaving you to anxiously wait until the next episode is released to find out what happens? Or been scrolling through your social media and noticed a news story about your idol; making you question your entire life choices? This is down to the people who work in the media industry! This course is aimed at anyone interested in exploring how and why media is created and its role in everyday life. Through examining a variety of media such as films, TV programmes, newspapers, social media and the radio, you will develop an appreciation of the portrayal of individuals through the media and how the media industry shapes what we watch and read. There will also be the opportunity to gain National level unit awards by the end of the course.</p>	
8	<p><b>Film and Screen - Film Making level 3.</b></p> <p>In this new course being offered in the Scottish Curriculum you will:</p> <ul style="list-style-type: none"> <li>• Develop script and story for a variety of Film and Screen projects.</li> <li>• Develop, film and edit a variety of Film and Screen projects.</li> <li>• Become familiar with set etiquette and gain a deeper understanding of the effective collaboration involved.</li> <li>• Understand a wide variety of roles/jobs that are available in the Film and Screen industries.</li> </ul> <p>learning about the need to consider a range of audiences and contexts for your Film and Screen products.</p> <p>This course can link to level 4/5/6 Film and Screen Award.</p>	
9	<p><b>PE - Strength &amp; Conditioning</b></p> <p>This course is aimed at improving personal fitness. Students will develop an understanding of basic strength and conditioning in order to improve their own fitness and performance. The course will cover various different methods of training such as weight training, plyometrics, circuits and many more. Students will gain an insight into how to create a training programme to help improve their performance and fitness levels. This course would be a good platform for pupils looking to study Level 5 Sport &amp; Fitness in S4.</p>	
10	<p><b>PE - Practical Performance Skills through Team Sports</b></p> <p>This course is aimed at pupils who are keen and enthusiastic in all sports. This course would concentrate on developing the skills, techniques and strategies through a number of team sports (indoor and outdoor) to enhance their performance. This course would be a good platform for pupils looking to study National 4/5 PE or the Level 5 NPA in Team Sports in S4.</p>	
11	<p><b>PE - Practical Performance Skills - Dance &amp; Gymnastics</b></p> <p>This course is aimed at pupils who are keen and enthusiastic in creative arts; focussing on dance, gymnastics and the aspects of fitness required within them. This course will concentrate on developing the fitness, skills and techniques through these activities to enhance the pupil's performances. This course would be a good platform for pupils looking to study National 4/5 PE in S4.</p>	
12	<p><b>PE - Mountain Biking Skills</b></p> <p>This course is aimed at pupils who are keen and enthusiastic mountain bikers. This course would concentrate on developing the skills, techniques and fitness required to enhance their performance. It would also look at basic bike maintenance skills. This course would be a good platform for pupils looking to study the Level 4 Bike Maintenance course in S4.</p>
